

AeraMax[®] Pro by Fellowes is a line of commercial-grade air purifiers engineered to create healthier shared spaces by removing airborne contaminants where they matter most. Ideal for high-traffic environments like offices, restrooms, schools, and waiting areas, AeraMax[®] Pro units feature activated carbon and H13 True HEPA filtration with antimicrobial treatment proven to capture 99.97% of particles as small as 0.3 microns.

Equipped with advanced, self-regulating sensors, these purifiers automatically adjust to real-time occupancy and air quality—delivering clean air only when and where it's needed. This fully automated operation reduces energy consumption compared to units that run continuously, offering a more efficient approach to indoor air quality. Backed by independent and third-party testing, AeraMax[®] Pro provides proven, low-maintenance protection to help make any facility safer and healthier.

Seamless Integration

Fellowes AeraMax[®] Pro was designed to seamlessly integrate into your facility's environment. All models are wall-mountable, unobtrusive and aesthetically pleasing, so you can provide worry-free air purification wherever it's needed most.

EnviroSmart[™] Technology

Our proprietary and patented EnviroSmart[™] Technology enables our AeraMax[®] Pro commercial-grade air purifiers to continuously monitor your environment and automatically adjust to clean the air, conserve energy and reduce operating costs.

Proven Performance

All AeraMax[®] Pro units are built with 24/7/365 operation in mind. High-quality components ensure your unit is reliable, durable, and tamper-proof.

Effective Filtration

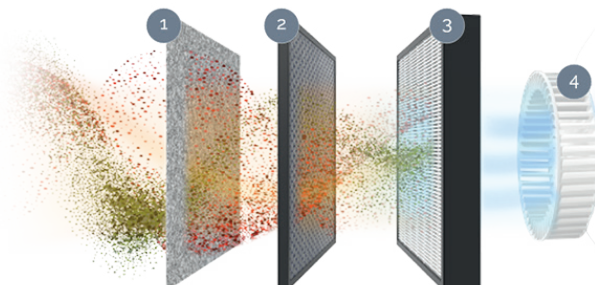

The AeraMax[®] Pro four-stage filtration process uses the following proven methods to effectively clean the air.

1. Pre-Filter

Captures large particles

2. Active Carbon Filter

Absorbs odors and volatile organic compounds (VOCs)

3. True HEPA Filter

Captures 99.97% of particles as small as 0.3 microns

4. PlasmaTrue[™] Bipolar Ionizer

Improves capture efficiency

AeraMax Pro AM2 is Available in 3 Configurations

Wall Mount

Stand
(with Stand Kit)

Wall Recessed
(with Recess Kit)

| Code | Dimensions (H x W x D) | Weight (lbs.) | Color |
|------------------------------|-------------------------|---------------|-----------|
| 9416101 (Wall Mount) | 22.60" x 14.8" x 4.13" | 12.8 | Stainless |
| 9540901 (Stand Accessory) | 15.16" x 15.78" x 8.46" | 2.2 | Stainless |
| 9540801 (Recess Kit) | 25.28" x 16.26" x 3.27" | 10.36 | White |

| Specifications | |

Protect Your Purifier!

To ensure stated performance and efficacy of your Fellowes air purifier, only use genuine Fellowes branded filters. Off-brand filters may damage and affect the performance of your unit and void your unit's warranty.

Fellowes AeraMax Pro air purifiers demonstrated, through independent laboratory testing, to be effective in eliminating aerosolized concentration of SARS-CoV-2 by 99.9999% through a single air pass test of the purifier. In addition, AeraMax Pro air purifiers reached 99.99% airborne reduction of a surrogate Human Coronavirus 229E in a 20m3 test chamber within 1 hour of operation in a separate test.
